*...delivering the promise*

 **SEVEN**  
TELEMATICS

## Reduce operating costs:

- Significantly lower phone costs
- Simple integration to many route planning software packages
- Greater vehicle productivity
- Simple validation of driver hours
- Improve fuel returns
- Optimise routing plans
- Congestion charge area alerts.

## Improve visibility and reporting:

- Full vehicle audit trail reports
- Flash mapping giving street level detail
- Individual vehicle activity reports
- Itemised journey reports
- Web-based, accessible 24/Seven.

*Seven Telematics uses leading edge telematics technology with the latest mobile communications systems in an easy-to-use vehicle tracking system designed and supported by Seven Telematics own team of experts.*

## Improve safety and security:

- 24/Seven security protection
- Less driver distraction through less cab phone use
- SMS & email alerts
- RFID tags and readers
- CANbus interface
- Driver covert panic alarms
- Geofence zoning tools.
